BRITISH PUSH
NEW ATTACK
ON SOMME

Having Captured 4,000 German Prisoners and Many Important Positions, General Haig's Forces Push on to Other Conquests.

NO RELAXATION IN AWFUL PRESSURE
ANCRE SECTOR NOW IN ALLIES' CONTROL

German Activity is Reported by Paris in Champagne Region. On the Eastern Front Russians are Holding Their Own, According to Reports.

(Associated Press Cable.)
London, November 14.—With important ground on a five mile front already won from the Germans on the northern edge of the Somme region and across the Ancre brook in northern France, the British are fighting on in their new offensive.

Already, they have taken more than 4,000 prisoners, and the number is reported increasing considerably.

London officially confirms the news of the capture of Beaumont-Hamel, north of the Ancre, one of the strongest points in the German defensive line in this region.

British troops stormed this heavily fortified position, and further south advanced to the edge of the Beaumont-sur-Ancre.

Apparently the British are not relaxing their pressure, now that they have succeeded in materially sharpening the salient in the German line by their advance up the Ancre Valley, as London reports the battle continuing.

Mirameau, on the Albert-Bapaume railway, and ultimately Achiet le Grand, an important railway junction point southwest of Bapaume, seemingly are the British objectives.

Paris reports German activity in the Champagne region, where an attack on the French lines near Aubervy, by a strong hostile detachment is declared to have been repulsed.

On the eastern front, in the Carpathians the Russians appear to be holding their own, Petrograd reporting the repulse of Austro-German attacks in this region.

BERLIN ADMITS

Today's German official statement, in reporting on the fighting along the Ancre, admits the loss to the British of Beaumont-Hamel and St. Pierre Division, with the lines connecting them.

The losses on both sides were heavy, it is declared, the Germans suffering considerably because of their tenacious defense.

General von Falkenhayn continues to make progress in his invasion of Roumania. Both Petrograd and Bucharest admit Teutonic successes.

The Russo-Roumanian troops have been compelled to give ground at one point in the region northeast of Campulung, and to withdraw southward in the Jiu Valley, from Bumbeshi, where the Austro-German forces have pushed some 12 miles south of the border.

Progress also along the Moldavian border of Roumania is claimed by Berlin, which announces the retirement of the Russians to the frontier after the fighting that has been in progress in the Gyrgye mountains.

LANSING'S REPORT
IS ENCOURAGING

Villistas Reported to Be Withdrawing From Chihuahua City Region.

Washington, November 14.—Secretary Lansing's report from border officials say Villista forces operating around Chihuahua City are withdrawing, and that more Carranza troops are being sent there.

The dispatches did not say where the Villa troops were moving, pointing out merely that the movement seemed to insure added safety to that district.

No word has been received from Parral, which was reported to have been captured by Villa troops.

FLOUR PRICES
ARE BOOSTED

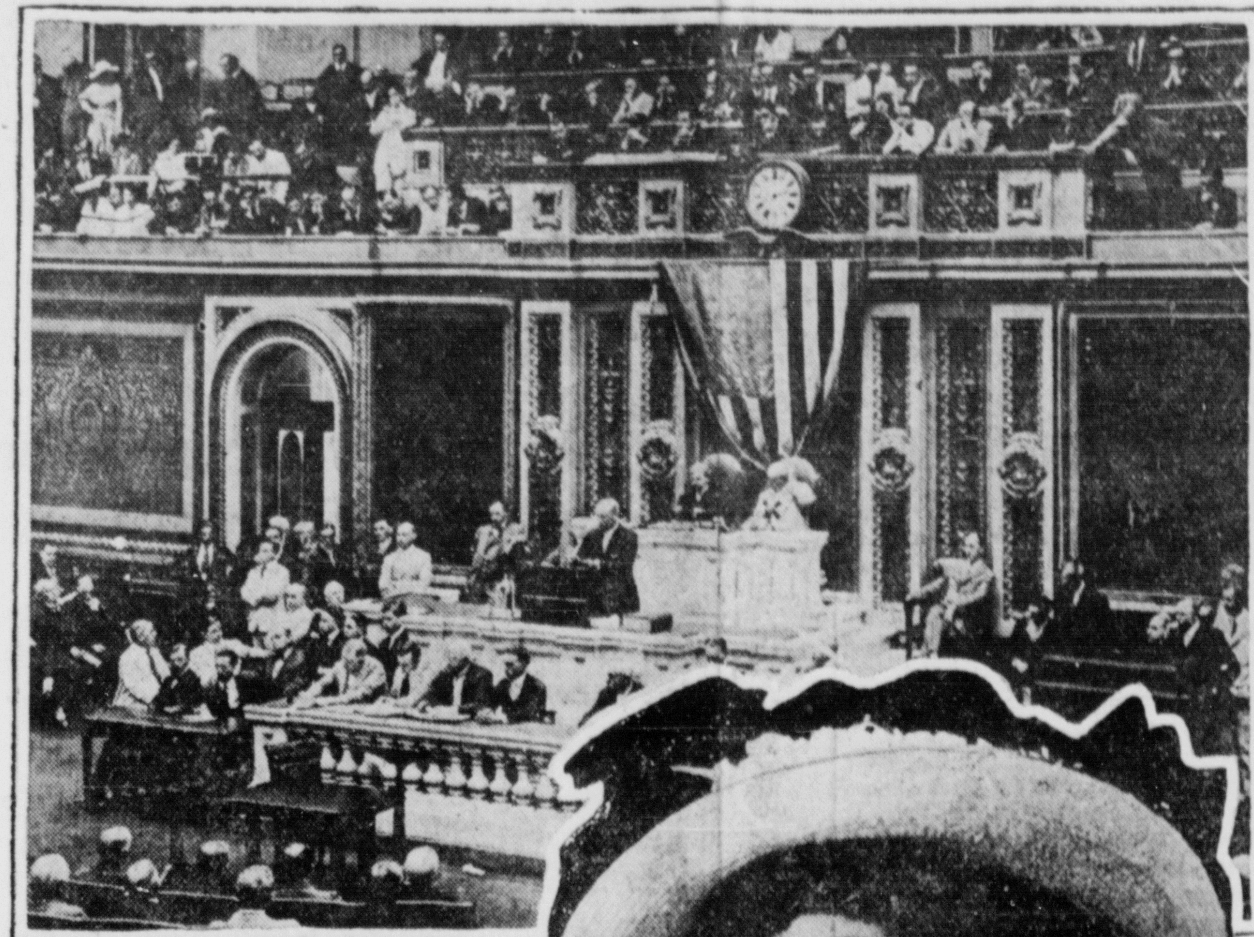

Jump in Best Wheat Product Stimulates Move for Legislation.

Toledo, O., November 14.—When flour advanced today 20 cents making the best grades \$12 a barrel, impetus was given legislation introduced in the city council last night for establishing municipal depots for the sale of coal, flour, potatoes and gasoline.

The resolution, adopted by unanimous vote, provides for appointment by the president of council of a committee of five to investigate.

Further legislation will be required for actual establishment of the proposed municipal food and fuel depots to sell coal and actual necessities of life at or near cost.

Bakers, generally, announce today reduction in the size of five cent loaves of bread from 16 to 12 ounces.

WOMAN MAY HAVE SEAT IN CONGRESS,
FIRST TIME IN THE NATION'S HISTORY

HOUSE OF REPRESENTATIVES
(PRES. WILSON SPEAKING)
AND MISS RANKIN.

Miss Jeanette Rankin, reported elected to the national house of representatives from Montana, is a source of particular pride to the National Suffrage association, inasmuch as she was for a number of years one of its most valued organizers and the standard bearer who carried her state for suffrage. She is tall and red haired and a Republican in politics.

Jeanette Rankin is a member of a well to do bankers' family of Missoula, Montana. In 1908 she was graduated from the New York school of Philanthropy, went to Seattle, Wash., filled a position of "baby placer" for a year, found that wasn't her metier and quit finding ideal homes for infants to join the women fighters in Washington. She stumped and organized in the Washington campaign and received no remuneration. "It

was for the cause," she said in referring to it. She became later the field secretary of the National Woman Suffrage association. House listening to President Wilson and Miss Rankin in pictures.

COLD WAVE
IS MOVING
EASTWARD

Snow and Cold Grip the Entire West of Country—Much Colder Predicted.

Washington, November 14.—The cold wave from the Rocky Mountain regions continued to move eastward today, and freezing temperatures had extended southward to the Mexican border.

The Coldest place in the United States today was Lander, Wyoming, where it was 10 degrees below zero. Parts of Colorado, Nebraska, Iowa, and South Dakota also experienced unseasonably cold weather.

The advancing cold was being felt throughout Middle West, and practically all states east of the Mississippi River, but it seemed to be losing its intensity as it moved eastward.

Snow has been falling in New England, interior New York, the Great Lakes region and the upper Mississippi Valley, while rain, sleet, and snow were falling in the Ohio Valley

and Tennessee, sleet and rain in the west Gulf States, and rain in the Middle States and southern New England.

Much colder weather is predicted to overspread the upper Ohio Valley and lower lake region tonight.

SUFFRAGISTS
MEET TODAY

Lima Is the Mecca Toward Which Hosts Are Trending.

Lima, Ohio, November 14.—Officers and committee members of the Ohio Woman Suffrage Association arrived here today for the annual convention of Ohio suffragists, which opens tomorrow for a two days' session.

An executive meeting will be held tonight to consider the program for the year's work, to be submitted to the convention tomorrow.

The most important question to come before the convention is the advisability of going before the Legislature for presidential suffrage.

CABRERA
IS OPPOSED

International Problems Not Nearer To a Solution by Reason of Disagreement.

Atlantic City, N. J., November 14.—Vigorous opposition today by Louis Cabrera, chairman of the Mexican representation, prevented a formal agreement by the Mexican-American Commission on the principal and essential points of the plan for the withdrawal of the American troops from Mexico, and of the other questions that have arisen between the two countries.

This unexpected opposition is believed to have brought the commissioners once more to a position where a solution of the international problems cannot be reached for several days at least.

It became known today that yesterday, while Mr. Cabrera was in Philadelphia conferring with Rafael Nieto, sub-secretary of the Department of commerce, the other two Mexican representatives and the American commissioners entered into an agreement which the Mexicans believed would be ratified by Mr. Cabrera, but when he returned today he disapproved of the agreement.

DEUTSCHLAND PREPARING
TO LEAVE FOR EUROPE

Given Several Submersible Tests Today.

New London, Conn., November 14.—

The German submarine merchantman Deutschland was given two more submergence tests today, remaining down the first time over half an hour. More provisions were taken on board today.

It is understood that, so far as the cargo is concerned, the Deutschland is ready to leave at any time, but no definite information as to the hour of sailing has become public.

Reports were current that the craft might not leave before the latter part of the week.

ROUTINE WORK
TAKES TIME
OF PRESIDENT

Cabinet Meeting for Today Postponed Until Detail Work Can Be Disposed Of.

Washington, November 14.—President Wilson cancelled the Tuesday's Cabinet meeting and all other engagements today, so he could dispose of routine work which has accumulated during the campaign.

The President, it was said today, would like to find places for some defeated senators and representatives but cannot appoint them to boards and commissions created by Congress because of legal restriction against it.

SENATE TO
LOOK INTO
ELECTIONS

Probability That the Election of New and Watson to the Senate Will Be Contested.

Other Fraud Charges to Be Aired.

Washington, November 14.—A senatorial investigation of alleged misuse of money in the presidential campaign was announced definitely today by Administration officials.

Preliminary plans have been made, and a resolution providing the machinery for the inquiry is ready to be introduced soon after Congress convenes next month.

It was stated today that evidence was being collected, but its details were not disclosed.

The plan is to call those actually in charge of campaign finances before the Senate committee and investigate the details of their transactions.

Various reports concerning use of money in certain states have come to Democratic headquarters, as well as to Republican headquarters.

Investigation into alleged attempts to colonize illegal voters in Indiana and West Virginia, particularly, was begun several weeks before the election.

Evidence is being gathered by Democratic leaders upon which to base contests in the election of Harry S. New and James E. Watson, as senators from Indiana, and Representative Howard Sutherland as senator in West Virginia.

New, on the face of the Indiana returns, defeated Majority Leader Kern and Watson won from Senator Taggart. Sutherland, in West Virginia, defeated Senator Chilton.

It has been charged by Democrats that negroes were colonized from the South in states where the Republicans triumphed by small majorities.

TO PROCEED

Washington, November 14.—The Department of Justice announced that its investigation will proceed in various states despite the fact that the elections are over, and announced that prosecutions were to follow where the law has been violated.

A large force of special agents has been working in Michigan, Ohio, New York, Illinois, Indiana, and other states.

Officials decline to say in what states evidence has been obtained.

EVANGELINE C. BOOTH
SLOWLY RECOVERING

New York, November 14.—After an illness of several weeks, during which "ceaseless prayer" was offered for her in Salvation Army circles throughout the country, Evangeline C. Booth, commander of the Salvation Army in the United States, is reported today well on the way to recovery.

It is expected that she will be able to resume her duties within a few days.

LIFE OF BOY CRUSHED OUT UNDER ENGINE

Edward Snyder, Son of Mr. and Mrs. David Snyder, Mangled By Switch Engine Near Union Station and Dies Soon Afterward.

Caught by the B. & O. switch engine while he was walking the D. T. & I. tracks about 100 yards north of the Union Station in this city, Edward Snyder, 15, son of Mr. and Mrs. David Snyder, of Millikan ave. this city, was mangled in a most shocking manner and expired a few minutes later just after he had been rushed to the Fayette Hospital.

The young man had been confined in the Ohio Home for Epileptics at Gallipolis, for sometime, and had arrived home from that institution Monday evening.

When the engine struck him the young man was carrying a sack upon his back, with a small quantity of coal which he had evidently picked up along the road.

Just how the accident occurred probably will never be known, as the first intimation the engine crew had of the tragedy was when the fireman noticed a man's leg protruding from beneath the tender of the engine.

The engine which was backing up the track was stopped at once and a man's body was found under the trucks. The engine was run forward a few feet leaving the body upon the tracks.

A hasty examination showed that the injuries were fatal, and while the injured youth was still alive, he was unconscious, and died without regaining consciousness.

His left leg was severed at the hip and shockingly mangled. His right leg was broken and crushed. One hand was crushed and his body and head were bruised and crushed more or less by being rolled under the trucks.

It is supposed that the young man was walking on the tracks and probably had his head down as result of the sharp wind blowing and either did not hear the approaching engine or his condition was such that he did not think of his danger.

Dr. McFadden was notified as soon as the accident occurred and was soon on the scene. The dying youth was hurried to the Fayette hospital in the McCoy ambulance, and the father, a laborer, was summoned but arrived just a few minutes after death had taken place.

The remains were removed to an undertaking office and prepared for burial.

LITTLE CONTAGION IN CITY AT PRESENT

At the present time there is probably less contagious disease in the city than at any time for many months, and Health Officer Byron, who has been devoting his entire time to the health of the city believes that there is no further fear of diseases spreading.

At the present time there is only one case of typhoid fever under quarantine in the city, and no further spread of that disease is expected.

Scarlet fever, of which there had been a number of cases, has dwindled down until there are only two quarantine cards posted and within a short time these will be removed.

HAS SKUNK HIDE DRAWS \$10 AND COSTS

Green skunk hides have been getting a number of persons in trouble in this part of Ohio recently, and the last one is Frank Wood, a farmer who faced Justice T. N. Craig upon a charge filed by a Deputy Game warden, and was fined \$10 and the costs for having a green hide in his possession when the skunk law does not open until November 15th.

Beginning November 15th and until February 1st skunks may be killed.

These animals are much sought after because of their fine fur, and a full black pelt is worth several dollars.

Raccoon also may be trapped until March 1st.

U. W. CANNON DIES MONDAY AFTERNOON

Mr. U. W. Cannon, one of the best known farmers of Jeffersonville community, passed away at his home on Maple street, Jeffersonville, Monday afternoon at one o'clock, after suffering of heart trouble for sometime.

The deceased took treatment in a Columbus hospital until last week, when his condition became so serious that he came home, realizing that death must come within a few days.

The deceased leaves a widow and five children; John, on the home farm; Mrs. Tadie Barker, Jeffersonville; Curtis, of Illinois, and Harry of Toledo.

Funeral services at the residence Wednesday morning at ten o'clock, and interment will be made at Fall Creek cemetery, Highland county, where his first wife was interred.

FRACTURES SKULL

While attempting to slide down a rope in the hay-loft of his father's barn, Sunday, the 14-year-old son of Dr. Elliott, of Hallsville, Ross county, sustained a fractured skull by falling to the floor below. His condition is quite serious, although he is expected to recover.

30-DEGREE DROP IN TEMPERATURE

The cold wave came as predicted, and swept the mercury down below the freezing point in short order.

At two o'clock Monday afternoon the mercury was hovering around 58 and 60 degrees, and as the Borean current swept up from the west the mercury began to drop and in twelve hours time a drop of nearly 30 degrees was recorded.

At three o'clock Tuesday morning the mercury was below the freezing point and continued the downward trend so that at nine o'clock Tuesday morning the thermometer registered 27 and 28 degrees above zero.

The cold wave coming so suddenly made humanity shiver and pile more coal on the fire or turn the gas just a little higher than ever before this fall.

STATE RESTS IN FIN. MORRIS CASE

After the examination of a half score of witnesses, the State, in the case of Ohio against Finley Morris, charged with manslaughter, rested its case at noon Tuesday, and the work of examining witnesses for the defense was taken up.

Witnesses examined for the State were Dora Anderson (in whose house the tragedy occurred), Dr. L. L. Brock, Millie Rose, Sam Powell, Carey Brenner, Mrs. Jerry Powell, Stanley Wilson (father of Willard Wilson who was killed), and Chief of Police D. L. Moore.

Witnesses for the defense, introduced up to three o'clock Tuesday afternoon were Jacob Stuckey, Add Dwire, L. C. Mallow, John Shrook, Ad. Hays and Miles Holly. The last named witness occasioned considerable merriment by some of the answers given.

Some of the evidence was contradictory. It is expected the case will go to the jury sometime Wednesday.

BLACK LEG STOPPED IN NEARBY COUNTY

Blackleg, the new cattle disease which was discovered among two or three herds of Ross county cattle recently, has been stopped and no further danger is expected.

Veterinarians have been treating the afflicted cattle and their work has proven highly successful.

Regardless of the fact that the disease is yielding to treatment, the authorities are not relaxing their vigilance, as the disease may spread if not properly guarded.

Some of the disease still exists in Pickaway county, it is claimed.

Poetry For Today

AMBITION.

If you would rise above the throng
And seek the crown of fame,
You must do more than drift along
And merely play the game.
Whatever path your feet may tread,
Whatever be your quest,
The only way to get ahead
Is striving for the best.

"Tis not enough to wish to do
A day's toll fairly well;
If you would rise to glory, you
Must hunger to excel.
The boy who has the proper stuff
Goes into every test
Not seeking to be "good enough,"
But eager to be "best."

Aim high! And though you fail today
And may tomorrow fail,
Keep pounding steadily away,
Some day you'll hit the nail.
At no half-way mark ever pause
In smug content to rest.
Who would win honor and applause
Must want to be the best.

The best must be your way in life,
The best in sport or work,
Success in any form of strife
Falls never to the shirk.
The crowns of leadership are few,
The followers move in throngs,
If you would be a leader, you
Must shun the "drift alongs."

German Thoroughness Again

The fact that the central powers have planned their campaign and formed their battle lines in Dobrudja, to resist the attempted advance of Roumania and Russia across Bulgaria to a junction with the entente forces in Greece, with that terrible German thoroughness in war, needs no further proof than the daily reports of the fighting in the Balkans.

Back and forth across a narrow strip of Transylvania the opposing forces see saw locked in a death grapple which shows no signs, as yet, in resulting to the decided advantage of either one of the opposing forces.

Germany's threat to beat back the invaders of Bulgaria and prevent a junction of forces has been made good by the last month of fighting.

She has failed, however, to make good her threat to crush and over-run Roumania as she did Serbia and because of that the civilized world is pleased.

The coming winter promises to bring awful suffering to the people of the Balkan states, especially to those who have been driven from homes by the invading armies. The neutral nations cannot help hoping that the cruel necessities of war will not add to the millions now suffering the population of Roumania.

The struggle, however, in the south eastern section of Europe has become a vital one and Germany and Austria must prevent if possible, using all the terrible weapons of war, the junction of the opposing forces in Greece.

Success of the Allies and Roumania in that campaign would mean unmeasurable disaster to the cause of the central powers as it would cut them off from the granaries of Bulgaria and Turkey and mean opening of the great storehouse of Russia to the entente powers.

Winter Is Coming

At last our beautiful fall weather which has been so long enjoyed seems about to be ended.

Weather bureau reports are to the effect that the entire west and northwest have been gripped in the icy hand of winter.

This has been an out of the ordinary year all around and weather conditions have furnished no exception to the general tendency.

Now after a record breaking period of good weather winter comes upon us "all of a heap" and smashes the records with the coldest November weather ever recorded in the northwest.

The people of the middle states are not in condition to stand very much extreme cold weather right now. Perhaps if the coming of winter could be postponed until the cause of the coal car shortage was ascertained and removed, they could endure it better.

Never has winter come upon the people during the prevalence of an era of prosperity and found them so "unprepared."

Respect for the Nation

It is quite evident from the story to be gathered from the voting last week, that there are a great many people who while not desiring war with any other nation, feel that in maintaining a firm policy of peace the United States has, somehow, lost the respect of other nation.

There seems to be a desire among the people of the world during the last few years, to fight and that desire is difficult to hold in restraint.

Few people who are objecting to the nation's peace policy would for an instant, suggest that any other result would be desirable.

But the feeling seems to prevail with far too many people that in order to have peace with honor we must either fight some nation or assume such a belligerent attitude that other nation are driven to go to war with us or eat humble pie.

We can not help feeling that all such contentions are mistakes.

There is no reason why all the nations of the earth should not respect the United States fully as much because it attains the desired end without war or threat of war—without bloodshed or bluster and brag—as they would if this nation assumed the attitude of a bully, preferring to backup its contentions with force rather than by an appeal to reason and justice.

With individuals it is not the "bruiser" ready to enforce his demands with his fists or with firearms, who holds the respect of the community. It is the quiet man of peace who has right on his side and goes about his successful way without resort to or threat of violence.

Nations are not different in that regard. If the nations of the earth are to maintain peace and secure prosperity in commerce through reason and justice they must assume an attitude of peace and stop the threats of fight.

The nation which shows the way—will gain not lose the respect of sister nations of the Earth.

AMBITION.

If you would rise above the throng
And seek the crown of fame,
You must do more than drift along
And merely play the game.
Whatever path your feet may tread,
Whatever be your quest,
The only way to get ahead
Is striving for the best.

"Tis not enough to wish to do
A day's toll fairly well;
If you would rise to glory, you
Must hunger to excel.
The boy who has the proper stuff
Goes into every test
Not seeking to be "good enough,"
But eager to be "best."

Aim high! And though you fail today
And may tomorrow fail,
Keep pounding steadily away,
Some day you'll hit the nail.
At no half-way mark ever pause
In smug content to rest.
Who would win honor and applause
Must want to be the best.

The best must be your way in life,
The best in sport or work,
Success in any form of strife
Falls never to the shirk.
The crowns of leadership are few,
The followers move in throngs,
If you would be a leader, you
Must shun the "drift alongs."

THINGS DOING AT THE MOVIES

COLONIAL.

Tyrone Power, foremost among America's greatest stars in heavier dramatics, is the lead at the Colonial Tuesday in "The Eyes of God," a tensely dramatic play of the moral type. Tyrone Power, it will be remembered, was the star of "Where Are My Children," which showed here recently.

Carlyle Blackwell and Ethel Clayton are the extraordinary star team leading in "His Brother's Wife," a picture of perplexing situations concerning two brothers and a woman. Charming Kitty Gordon, stage and screen favorite and the envy of all women by reason of her really remarkable genius for "wearing" clothes, arrives at the Colonial Thursday in a play particularly adapted to her talent, "In a Looking Glass."

Friday ushers in Miss Dorothy Dalton and Howard Hickman in "The Jungle Child." Miss Dalton is one of Triangle's most successful vampiress. The story is that of a girl raised in the jungles and her adventures in society.

PALACE.

Valeska Suratt, famous vampire of footlights and camera, is the Palace star Tuesday in "The Straight Way," a picture of intense social interest. Billie Burke monopolizes the screen Wednesday in another chapter of the popular serial, "Gloria's Romance."

Vitagraph Blue Ribbon Thursday presents that incomparable team, Edith Storey and Antonio Moreno, stars of a half dozen V. L. S. E. triumphs including "The Island of Surprise," in "The Shop Girl."

Florence Turner is the star Friday in a Mutual feature, "The First Settlers."

Saturday brings Chapter Six of the interesting wonder serial "Liberty."

WONDERFUL.

Petite Marguerite Clark occupies the salient role in the Wonderland's Tuesday bill, "Helene of the North," a gripping story of love and action built about the struggles of a clever band of moon shiners and the mounted police of the Canadian Northwest.

Geraldine Farrar, famous prima donna and more recently celebrated photoplay star is the role lead Wednesday and Thursday in a pretty

CHOLERA IN JAPAN ON THE DECREASE

(Associated Press Cable.)

Tokio, November 14. — Although cool weather has brought a decrease of cholera at Tokio the malady continues to spread at Osaka. Up to October 10 the cases at Tokio had reached 548; at Osaka the total was 2,601, with an increase of twenty daily.

At Tokio there have been 151 deaths. The authorities believe that by the end of the month the epidemic will be entirely wiped out here. No foreigner has been attacked by the disease, so far as is known.

The spread of cholera to Korea has had a serious economic effect, as the authorities have prohibited fishing in a zone extending along 200 miles of coast. Cholera is believed by many physicians to be easily circulated from fish tissue and the fishermen of Korea are said to have failed to comply with sanitary measures ordered by the health department. Some 270,000 fishermen, commanding 40,000 boats, are thus thrown out of work at the most fruitful fishing period of the year. Fear of fish as a microbe carrier has reduced the consumption of fish throughout the Japanese Empire and as fish, next to rice, is the chief food of the people the ban placed upon it has caused misery among both fisherman and distributor.

In Social Circles

Two well known families of the county were united in marriage Tuesday afternoon, when Miss Hazel Andrews, daughter of Mr. and Mrs. John Andrew, of near Bloomingburg, became the bride of Mr. and Mrs. O. O. Garring, residing on the Greenfield pike.

Rev. Charles L. Pfaltzgraf, of Good Hope, married the young couple. The bride looked very pretty in a tailored suit of dark blue French serge and blue velvet hat with silver trimming. She is a graduate of the Washington high school and a very capable girl. For several years she has kept house for her uncles, Messrs. Robert and Frank Sorrel, of the Bogus road.

The bridegroom is a likable and energetic farmer who shares with his bride in the best wishes of many friends. He has been farming with his brother, Mr. Lawrence Garring, on the Garring farm on the Chillicothe pike, formerly the Hukill farm. Mr. Garring has almost completed on this farm the erection of a new home, which will be occupied by himself and his wife in a few weeks. Until then they will make their home with Mr. and Mrs. Lawrence Garring.

The Clonians held session with Mrs. Robert Howat Tuesday afternoon, to begin, with keen interest, the new study for the year, "The Modern Drama."

The club members feel greatly indebted to Miss Margaret Pullerton, one of the assistant state librarians, who has worked out a most delightful program on this interesting subject and is furnishing the newest and most approved books of reference.

Following the afternoon's study on "The New American Drama," Richard Burton, the Clonians perfected plans for the "Home Industrial Exhibit" and tea which they will give on Thursday afternoon, the 23rd, at the Federated club rooms for the benefit of the Welfare Association. The affair will undoubtedly be one of the most novel and attractive of the season.

Mr. and Mrs. Val McCoy again extended the always spontaneous hospitality of their country home at a thoroughly delightful dinner, Sunday. An artistically arranged basket of lighter sweet formed the central decoration of the table laid with twenty covers.

The favored guests were: Mr. and Mrs. Robert Howat, daughter Miss Joan, Miss Mary Robinson of this city, Mrs. Letitia Dill and daughter Dor-

thy, Mr. and Mrs. Hays Dill and little son, Mrs. Ben Parrett and son Albert, Mr. Roy Hagler, daughters Ruth and Mary, sons Jessa and Albert, Messrs. Howard Hagler and Arthur Staebus.

Mr. and Mrs. Scott Ball, of Ashland, Oregon, were honor guests at a most delightful dinner given Sunday by Mr. and Mrs. J. A. Melvin and daughter, Miss Marie. The additional guests were Mr. and Mrs. Robert Jefferson of Madison Mills, Mr. and Mrs. Willard Creamer and son Robert of Jeffersonville.

Mrs. Creamer and Miss Melvin had been guests at the hospitable home of Mr. and Mrs. Ball while traveling in the West a couple of summers ago, which lent added interest to the occasion.

Chrysanthemums were effectively used in decoration.

An interesting feature of tonight's Browning club session will be a talk by Mrs. W. B. Woodward, Regent of the Daughters of the American Revolution, on "Lincoln Memorial University."

The president of the university Mr. Geo. A. Hubbell, Ph. D., delivered an address at the recent Ohio Conference D. A. R. in Cincinnati, last week.

Mrs. Calverna Williams entertained with a six o'clock dinner Monday evening in honor of Mr. and Mrs. Charles W. Baker and little granddaughter, Wilma Leach, who expect to leave Saturday afternoon for their winter home at Orlando, Fla.

Covers were laid for eight and the affair was one of much pleasure.

Mr. and Mrs. J. D. McCoy entertained at an elaborate dinner Sunday, Mr. and Mrs. Hiram Curl, grandson George, Mr. Channing Curl, sister Miss Amy of Wilmington, Mr. and Mrs. John Steele and guest Mr. Francis Ford of Columbus, Mr. and Mrs. Bert McCoy.

Mr. L. D. Bishop is announcing the marriage of his daughter Nelle Louise, to Harry Harold Jones, on November 6th, at Newport, Ky.

NATION'S WORK ON WORLD MAP

By Associated Press Dispatch.

Washington, November 14.—Rapid process is being made by the United States in preparing its portion of the huge world map which was agreed upon in 1909 by nearly all the principal countries. By international agreement the authorities began preparing maps of the entire surface of the earth to be published on a scale one-millionth of actual size, or about one inch to every sixteen miles. All the maps are to be uniform in shape and general appearance and are to have the same conventional signs.

To meet the popular demand in this country for State maps, the United States Geological Survey, which has charge of the making of the American section of the world map, is preparing and publishing maps of each state on a larger scale than

the world map sections. These State maps are twice the size or about one inch to every eight miles. A map of the entire United States on that scale would cover a sheet measuring twenty feet by thirty-one feet.

The survey already has issued such maps for thirty-three states, the latest being that of Florida, which is one of the largest of the series. In compiling the maps every available source of information has been ransacked for material, and many data never before available to the public in any form have been procured, so that the maps exceed in accuracy any heretofore published. The new Florida map measures 44 1/2 inches by 61 inches.

Copies of the State maps are sold to the public by the Government at nominal price.

EMPLOYED TO WORK IN MUNITIONS PLANTS
(Associated Press Cable.)
The Hague, Netherlands, November 14.—About 2,000 unemployed in the Belgian city of Ghent have been deported to Germany for work in munitions factories, according to news from the frontier. A compulsory registration of unemployed took place a few days since, and the present labor compulsion is the sequel thereto.

Former employees of various engineering works at Ghent who gave no heed to the call, were seized in their beds at night by German soldiers and thrown into prison, it is alleged. Other instances of the imposition of forced labor have recently occurred also at Bruges, Eekloo, near Ghent and other places. All signs indicate that Germany is determined, so far as possible, to utilize the considerable available supply of Belgian labor to make good the ever-increasing military drain on its own man power.

TO AID DUTCH GUIANA
(Associated Press Cable.)
The Hague, Netherlands, November 14.—It is announced that a number of Holland's colonial merchant princes have formed a syndicate to inquire into the question of what fresh plantation enterprises can be founded in Dutch Guiana with a view to helping raise it from its present weak condition, and applying to this struggling South American colony the expert knowledge, energy and capital which have attained such good results in the Dutch East Indies.

SUBSTITUTE FOR MEAT

Do you know that one pound of California Sunmaid Raisins represent a food value equal to one and one-third pounds of beef or four and one-fourth pounds of potatoes or two dozen of eggs? There are dozens of different ways that they may be used. Sandwiches made of nuts and raisins are delicious. Secure one of our cook books giving raisins recipes. Price of raisins 12 1/2c per pound.

We have a full line of fruits and vegetables. See us.

Gloria
Romance
by MR. and MRS. RUPERT HUGHES

Novelized From the Motion Picture Play
of the Same Name by George Kleine
Copyright, 1916, by Adelaide M. Hughes

Continued From Yesterday's Herald
SYNOPSIS.

Pierpont Stafford, with his daughter Gloria, is wintering at Palm Beach. Gloria is a vivacious but willful young lady who chafes under the restraining hand of a governess from whom she repeatedly escapes. Her childish capers cause young Doctor Royce to fall in love with her. Becoming lost in the everglades she falls into the hands of the Seminole Indians. Gloria falls in love with her rescuer, Freneau. Five years later she leaves school and meets Freneau at the theater; he has forgotten Gloria. Later Freneau persuades her to forgive him. Gloria's sister-in-law, Lois, becomes intensely jealous and Doctor Royce discovers in her an ally. Freneau takes leave of Gloria. She sees from her window an attack made upon him. Doctor Royce convinces her it is delirium. A telegram followed by a letter, comes from Freneau. She replies but her telegrams are returned. She accidentally sees the supposed suicide of Freneau reported in the paper. Gloria swears to find the murderer of her lover. Royce tells her that he knows of Freneau to Mr. Stafford. They seek to prevent scandal from enveloping Gloria. She accuses them of conspiracy against her. Gloria sets about to run down Freneau's murderer. Royce warns Mulry to tell Gloria nothing. Gloria calls on Mulry and there sees Lois who is also worried. Gloria's suspicions are aroused. Royce endeavors to show her the difficulty she faces. Gloria goes to David's country home. She meets Mulry who flies at once. Gloria insists on going to Palm Beach. Again she sees Mulry there. He leaves for the North. She is recognized by her one-time captor, the young Indian chief. He tells her that Royce and not Freneau was her rescuer at that time. Gloria attends night court; she sees Mulry there, also the tramp who attacked Freneau. But Judge Freeman releases him. She follows the tramp when he leaves the court and falls into the hands of hold-up men. She finds herself in a low saloon dance hall, and is selected by one of the patrons as his partner. Doctor Royce, however, follows her and when he attempts a rescue, calls down a riot on their heads. The hall is raided and the crowd, including Gloria and Royce, is arrested and taken before Judge Freeman. The newspapers feature Gloria's arrest. Reporters surround the house. Casimir arrives with the child Gloria promised to adopt. She orders Royce to take Casimir's wife to the Stafford home. She follows Trask and lands on a houseboat to hear him accused of Freneau's murder.

was engine trouble in the works and the captain brought the hateful news that the yacht could not budge for several hours. Gloria was bitterly disappointed and completely baffled.

"It's the old story of the tortoise and the hare," she grumbled. "While we are sleeping here the barge is moving along every moment. We'll never find it. It'll get away for keeps this time."

"Never despair," said Royce stupidly.

"Don't speak to me," said Gloria. She flounced away to the stern deck to be by herself. Then the soft breeze blew away her anger and her furies. In spite of herself she fell asleep. Her father came to urge her to go to her berth, but she refused to stir.

"You'd better sell this old tub and buy a motor boat," she said.

Later Gloria was half-awakened by a little chill. She was too cold to say where she was and too drowsy to move. She saw a shadowy figure tiptoeing up. She knew that a steamer rug was gently laid over her. Half a dream, she murmured, "Thank you, Stephen."

She did not know whether he heard her or not.

When she awoke the yacht was redeeming its lost reputation. It was hastening up the river at a splendid gait. The sun was just crossing the eastern wall of hills.

Gloria went to her stateroom to

bathe and dress for a new and busy day. Breakfast was served on deck, and the Palisades slid back with encouraging rapidity.

Before Gloria had finished her breakfast a tug, towing a barge, was sighted on the northern edge of the water. Gloria went to the pilot house to stimulate the pursuit. She had great fun pulling down the tube to the engine to go as fast as possible and then still faster. She tried to hurry the pilot, too, but he explained that he could not increase the speed by turning his wheel. Gloria asked him numberless questions and made him teach her how to steer the yacht. At first he helped, but soon she could throw the wheel over to the queen's taste.

Gradually the barge grew larger and larger and its ugliness more distinct. The men on the tug paid no heed to the yacht following closely. But Gloria saw a gaunt figure on the barge watching anxiously. Soon he was distinguishable as Trask. Gloria left the pilot house and went forward to make sure. She recognized him as he recognized her. She called to him to surrender. He laughed. Then she saw that he had a rifle in his hand.

Trask had been mystified beyond endurance by the whole transaction. He had left Freneau's body in the moonlit snows in front of the Soldiers' and Sailors' monument on Riverside drive. He had watched the papers for days, expecting to read in each one an account of the finding of the body.

He had been driven frantic with anxiety by the silence of the journals. He had begun almost to wonder if he had really killed his man or only dreamed it, when suddenly the headlines had flared out with the statement that Freneau's body had been found in the lower bay, miles below the spot on Riverside drive where he had left it empty of soul.

He had cudgeled his brain trying to conceive who could have disposed of the evidence of his crime and with what motive. The papers said that Freneau had committed suicide, and nobody disputed it.
